

JEY PERAYERAVAN (MSc – MIS)

Mobile – 07733773777 – E-Mail – Jeydiv@Live.co.uk – LinkedIn - <https://www.linkedin.com/in/jeyperayeravan>

Strategic and Innovative **Data & Analytics Leader** with over 15 years of experience driving enterprise-scale data transformation across startups, scale-ups, and FTSE-level organizations. Proven track record in architecting modern, scalable **Data** platforms and executing AI-ready data strategies that unlock measurable business value. Expert at leading high-performing, cross-functional teams to deliver business-critical initiatives in fast-paced environments. Currently focused on building the foundational data infrastructure required for **Generative AI and Agentic workflows**, ensuring data reliability, real-time availability, responsible AI capabilities, and automated governance.

Core Competencies

- **Leadership:** Enterprise Data Strategy, Digital Transformation, Target Operating Models (TOM), Global Stakeholder Management, Championing self-service data culture.
- **Architecture:** Medallion , Data Mesh, Delta/ Lakehouse, Lambda Architecture methodologies in Cloud-Native Ecosystems (AWS/GCP/Azure).
- **AI & Analytics:** Machine Learning (ML) Propensity Modeling, Sentiment Analysis, Predictive Analytics and Agentic AI.
- **Operations & Governance:** GDPR Compliance, Automated Data Classification, CI/CD, TCO Optimization.

Aegon UK – Sep 2021 – Till date

Head of Data

Key Achievements

- **Cloud Data Foundations:** Leading the strategy and execution of a scalable enterprise data platform on AWS, enabling cloud-native capabilities and migrating critical business use cases from legacy on-premises silos.
 - **Strategic Investment:** Originated the business case and secured £10M in funding, delivering a projected annual ROI of £2.5M through infrastructure and license savings.
 - **AI-Ready Infrastructure:** Architected and implementation in progress for an Advanced Analytics Self-Service platform using AWS SageMaker Unified Studio (SMUS) facilitating self-service analytics and providing the high-quality data foundation needed for advanced AI modelling and Agentic AI initiatives.
 - **Operational Velocity:** Implemented a modern data engineering culture with continues integration and deployment pipelines and events driven orchestration, reducing go-to-market timelines from 3 months to 4 weeks (2 sprints).
- Talent Density:** Designed a T-shaped Data Target Operating Team Model and launched a graduate hiring program to build a sustainable, diverse talent pipeline.

MoneysuperMarket Group – Jan 2018 – May 2021

Director of Data Engineering

Key Achievements

- **Scale & Centralization:** Unified 50+ decentralized data professionals into a centralized Group Data function, improving resource efficiency by 40%.
- **DataOps Leadership:** Pioneered DataOps squads (Customer, Analytics, Finance), enhancing delivery velocity and autonomy while standardizing reusable frameworks.
- **ML Integration:** Co-developed a Machine Learning propensity engine, increasing email open rates by 30% and Clicks-to-Sales (CLS) by over 15%.
- **Governance at Scale:** Led a company-wide governance transformation, achieving a 60% reduction in compliance-related incidents and meeting PwC audit standards.

JEY PERAYERAVAN (MSc – MIS)

Mobile – 07733773777 – E-Mail – Jeydiv@Live.co.uk – LinkedIn - <https://www.linkedin.com/in/jeyperayeravan>

- **Cost Optimization:** Delivered £2M in annual savings through platform consolidation and legacy decommissioning across AWS and GCP environments.

Lebara Group – Oct 2004 – Dec 2017

Director of Data and Analytics - Apr 2016 – Dec 2017

Head of Business Intelligence / Data - Mar 2013 - Mar 2016

Head of Information Management - Feb 2009 - Feb 2013

Data Architect - Oct 2004 - Jan 2009

Key Achievements

- **Hyper-growth Scale:** Key leadership role in scaling the organization from 10 employees (£1M revenue) to 1,500 employees (£700M revenue).
- **Global Strategy:** Designed and executed a global data strategy across the UK, Europe, and India, positioning data as a strategic asset for top-line growth.
- **Behavioral Analytics:** Launched churn and usage behavior prediction engines, delivering over £7M in annual savings through optimized pricing and improved retention.
- **Vendor & Budget Management:** Directed strategic partnerships with IBM, Infosys, and HCL, overseeing £10M+ in project spend.

Cloud and Technology Experience:

- **Cloud Ecosystems:** 12+ years of experience across **AWS** (S3, Redshift, Glue), **GCP** (BigQuery, Looker, Pub/Sub, Dataflow, Lakehouse), and **Azure** (Data Factory, Microsoft Fabric, Power BI).
- **Data Engineering:** Reusable ETL/ELT Frameworks, Python (Intermediate), T-SQL, MySQL, and Real-time Ingestion (Azure/AWS).
- **Visualization & BI:** Power BI, Tableau, Amazon QuickSight, and Looker.

Academic Qualification & Awards:

- **MSc in Management Information Systems** | Brunel University, UK
 - **Awarded Distinction** for Masters Dissertation.
 - **Research:** Proved correlation between consumer negative sentiment (via Twitter and CRM data) and network switching using advanced sentiment analysis—pioneering early NLP applications in telecom.
- **Core Modules:** Data Management & BI, Organisational Change, Business Design, Systems in Context, and Project Management.
